

Happy New Year Junior Sailing Families!

Registration for the 2012 TAYC Jr. Sailing Program is exclusively open for club members and returning non-members between now and January 31. Review the pages of our new website to learn more about this summer's classes and coaches. When you're ready, a new online registration is available to streamline enrollment and more quickly secure a spot in the program. Classes fill quickly, so I encourage you to enroll during this window.

Our junior sailing program continues to build lifelong sailors by responding to the diversified sailing interests of our youth. Novice sailors seek confidence on the water and quickly get hooked on the natural independence and excitement found behind the tiller of their own boat. As sailors mature, some become competitive and aspire to improve their boat speed and tactics to succeed at racing.

This summer's program offers classes suited for all levels and sailors between the ages 6-18, and is designed to excel sailor confidence and experience through developing a skill set of seamanship, rigging and tuning, handling, safety, and boat care and maintenance. From this foundation we nurture each sailor's passion for the sport, whether that is enjoying the pleasures and adventures of cruising or sharpening racing skills for success on the course. Our coaches are selected from the best with proven expertise to build and strengthen sailing talent, while maintaining a safe and fun learning environment.

The program is off to great start and I look forward to serving the needs of the club and its members this summer and for many to come. Please contact me if you have any questions.

See you on the water!

Scott Williamson
Director
TAYC Jr. Sailing Program
